## PROJECTS

### Cloud-based POS system

🔗 <https://denvie.online/projects/413-cafezinho-pos>

This web app is a POS specifically designed for a coffee shop named 413 Cafezinho. It contains the basic functionality of a POS and automatically creates an e-commerce store alongside it.

- Decreased serving downtime by 3 minutes per order
- Increased sales reporting accuracy as the reports are now automated.

### Salon Queueing and Sales Tracking System

🔗 <https://denvie.online/projects/molley-bolley>

Python GUI software with SQL database that effectively manages customer queues, assigns employees to customers, tracks service data, and generates insightful reports.

- We have increased productivity by 50% due to automation of service records.
- Reduced FAQs on the receiving admission by 2 out of 5 customers.

## EXPERIENCE

### Software Web Developer

🔗 [Freelance](#)

📅 01/23 - Present
